

## Society (1989) 10.9.20

---

- ❖ We watched the [Arrow Video release of \*Society\*](#) for the show this week. It's a wonderful release meeting Arrow's high standards, and comes with lots of fun extras.
- ❖ [“The Unheimlich and the Uncanny” from \*The Ambiguities\*](#) --- Here's a little blog post offering some clear definitions of the term 'Uncanny,' which can be challenging to come by given its origins with Freud and his somewhat ambiguous usage of it. Despite any potential obscurity, The Uncanny is a fascinating concept and listeners are encouraged to learn more – and to check out the book mentioned in the blog post [Caligari's Children: The Film as Tale of Terror](#) by S.S. Prawer.
- ❖ [Horror Film and Psychoanalysis: Freud's Worst Nightmare](#) edited by Steven Jay Schneider -- This book's a tremendously helpful introduction to discussing horror films in the context of psychoanalysis, and it's useful source for learning about The Uncanny – there's an entire section devoted to it.
